

TREES CAN:

- REDUCE EROSION
- IMPROVE HABITATS
- CLEAN WATER
- PLANT THEMSELVES

THAT'S WHERE YOU COME IN!

In 2018, we set a goal to plant ten million trees across PA by 2025. To get there, we are providing free native trees to landowners, farmers, and partners to plant on their property – and helping them to connect with volunteers and available funding to assist with planting and maintenance efforts.
